World Energy, SkyNRG and AEG Fuels supply Sustainable Aviation Fuel for Bombardier Business Aircraft Flying to the Business Jets Fuel Green Event in Los Angeles

Los Angeles/Amsterdam/Florida, January 17, 2019 – World Energy, SkyNRG and AEG Fuels completed the delivery of sustainable aviation fuel (SAF) to Bombardier Business Aircraft. As a part of the OEM's environmental leadership and commitment to industry objectives to reducing emissions, the SAF was used for a flight on a Challenger 350* jet flying from Bradley International Airport (BDL) in Hartford, Connecticut to the [Business Jets Fuel Green](#) event at the Van Nuys Airport in Van Nuys, California.

The SAF is sourced by SkyNRG from World Energy's Paramount refinery in Los Angeles, California, currently the only SAF refinery worldwide, and delivered by AEG Fuels and SkyNRG. Bombardier's Challenger 350* aircraft completed the successful biofuel-powered flight on January 16.

"World Energy is committed to empowering our commercial partners with the tools to effectively transition to cleaner energy," said Bryan Sherbacow, CCO of World Energy. "Bombardier Business Aircraft and SkyNRG share our commitment to pioneering a path that significantly reduces greenhouse gas emission by utilizing sustainable aviation fuel."

"AEG Fuels is committed to the development and adoption of environmentally friendly fuels and working with World Energy and SkyNRG to deliver SAF to Bombardier Business Aircraft takes us a step closer to growing sustainable aviation options. In 2019, AEG Fuels will remain at the forefront in the development of a rapidly growing renewable fuel business" shared Greg Cox, Executive VP of Business Aviation at AEG Fuels.

"We're proud to supply sustainable aviation fuel for Bombardier Business Aircraft, jointly with World Energy and AEG Fuels. We hope that the Bombardier Business Aircraft flights on SAF are an inspiration for others in the industry and will be followed by a more structural use of SAF in business aviation." said Eline Schapers, Head of Sales, Supply and Operations at SkyNRG.

The flight to the Business Jets Fuel Green Event follow regular successful SAF flights by Bombardier's demonstration fleet both in the US and Europe.

About SkyNRG

SkyNRG is the global market leader for sustainable aviation fuel (SAF), having supplied over 25 airlines on all continents. SkyNRG sources, blends and distributes SAF, guarantees sustainability throughout the supply chain and helps to co-fund any price premium versus conventional jet fuel. At the same time, SkyNRG focuses on developing regional supply chains that offer a real sustainable and affordable alternative to fossil fuels. SkyNRG has its operations RSB certified and is structurally

advised by an independent Sustainability Board in which WWF International, European Climate Foundation, Solidaridad Network and the University of Groningen hold a seat. www.skynrg.com

About AEG Fuels

With over 30 years of expertise, AEG offers single-supplier convenience as a marketer of aviation jet fuel and related services. AEG provides services to clients 24-hours a day and 365 days a year. The AEG network provides fueling capabilities at over 3,000 locations worldwide. Additionally, AEG Fuels has a broad range of customers that include passenger, commercial and cargo airlines, U.S. and foreign militaries, heads of state, royal flight departments, corporate and charter operators, FBOs and fuel resellers. With offices in Miami, Houston, Stateline, Toluca, West Sussex, Dubai, Singapore and Shanghai, AEG is able to liaise locally in markets with customers and suppliers to provide the highest degree of service.
