

SkyNRG Business Development Intern

For our headquarters in Amsterdam, we are looking for an enthusiastic intern to support our business development team. SkyNRG is a growth-stage start-up that's on track to make aviation more sustainable by scaling-up sustainable aviation fuels. The Business Development team initiates and executes supply chain development projects around the world. As a member of the team you will have the opportunity to make a lasting impact on these projects. If you're working towards a master's degree with a genuine interest in sustainability who likes to combine technical knowledge with entrepreneurial skills, this could be your dream internship! Indicative start date to be discussed: March-April 2019

Company profile

SkyNRG is the global market leader for sustainable aviation fuel (SAF), having supplied over 25 airlines on all continents worldwide. SkyNRG sources, blends and distributes SAF, guarantees sustainability throughout the supply chain and helps to co-fund the premium. At the same time, SkyNRG focuses on developing regional supply chains that offer a truly sustainable and affordable alternative to fossil fuels. SkyNRG has its operations RSB certified and is structurally advised by an independent Sustainability Board. For more information please check: www.skynrg.com

Your day-to-day activities as a Business Development Intern

For our supply chain development initiatives, SkyNRG works together with partners from across the supply chain to commercialize new SAF production pathways. Based on your interests and university requirements, we will jointly determine what supply chain development projects you will work on. Typically, interns support the team in one of our supply chain development projects. Activities include:

- Technical and economic analyses of SAF supply chains;
- Sustainability assessments;
- Report writing and making presentations;
- Developing existing business opportunities;
- Stakeholder engagement and relationship management.

Key criteria

The ideal candidate is somebody who:

- Is in the final phase of a master's degree, technical background is preferred but not essential
- Has strong analytical skills and is comfortable with technical topics
- Is entrepreneurial
- Is self-motivated, independent and persistent with a can-do mentality
- Has affinity with sustainability
- Has great social skills and likes a start-up environment
- Is fluent in English and Dutch (both written and verbal)

What we offer you

SkyNRG is offering:

- A unique working experience in a growth stage start-up that's at the forefront of developments in the sustainable aviation fuel space
- An inspiring and international work environment
- A great opportunity to gain experience in business development

Is this you?
